GETSecured

Trace vulnerabilities, Assets and Data Breaches

Every business, knowingly or without knowing has a certain amount of data exposed in public.

We fix that! and improve your data protection without any resistance to your buiness continuity.

WHO WE ARE ?

We are accomplished cyber security experts, with industry experience in leadership roles in enterprises PwC, PayPal, Walmart,Thoughtworks and EY, taking care of cyber security practices and global delivery in sectors like web3, finance, e-commerce, healthcare, insurance and telecom domains. We help companies in discovering their exposed data over the Internet. Post analysis, we score them on the basis of their existing security frameworks and recommend ways to improve their overall security posture. We also provide a threat protection program to make companies ready for any unforeseen future attacks.

OURPRODUCT

GETSECURED.AI

GETSecured is a security scanning tool that can be used to find breached data, web app vulnerabilities, data leakage, whether the employees' emails are breached somewhere or not from Internet to Deep and Dark-Web. It also have capabilities to do risk assessment and give compliance report for web2.0 & web 3.0 applications and many more. We have a user friendly dashboard in which you can view all your previous scan details like from which country the asset is located, detailed vulnerability reports with mitigations.

GETSecured
